Copy the set of axes opposite and the shape labelled A.

(a) Reflect A in the line $x = 5$ to obtain B.

(b) Reflect B in the line $y = -2$ to obtain C.

(c) Reflect C in the line $x = -3$ to obtain D.

(d) Reflect D in the line $y = -2$ to obtain E.

(e) Name two reflections of E which would bring the shape back to A.
